# Enlightenment plan

## Intensive Trading Training Programme (25-30 hrs. Approx.)

---

- ❖ Basics & fundamentals of markets (in great detail).
- ❖ What is a price chart...? & its types
- ❖ Why is time equivalently important to price action...?
- ❖ What is technical analysis?
- ❖ Say no for unwanted elements → indicators, oscillators, etc... (concise).
- ❖ What is a trend...?
- ❖ What is Elliott Wave principle...? (detailed).
- ❖ How do waves develop...?
- ❖ Why does EWP work...?
- ❖ What is **degree**...? (very important)
- ❖ Legends for labeling Elliott patterns in chart.
- ❖ How to define & identify trends...?
- ❖ Classification of trends (great in detail-about motive & corrective takes 6 hours at least).

### Motive waves

- ✓ Introduction.
- ✓ Classification (impulses & diagonal triangles).
- ✓ Diagonal triangles (types).
- ✓ Characteristics.
- ✓ Expansion (w.r.t Fibonacci).
- ✓ Concept of truncation.

### Corrective waves

- ✓ Introduction.
- ✓ Classification (simple & complex).
- ✓ Simple (Flats & zig-zags).

- ✓ Triangle in detail, Contracting → Ascending, Descending, Symmetric & Expanding (incl. type 1 and type 2 in all subdivisions).
- ✓ Why & where do triangles occur...?
- ✓ Thrust measurement in all types of triangles.
- ✓ Complex combinations in corrections (double & triple threes).
- ✓ Expansion characteristics (w.r.t Fibonacci).

### **Guidelines for wave formation (in great detail)**

- ✓ Rule of Alternation.
- ✓ Depth of corrective waves.
- ✓ Rule of Equality.
- ✓ Rule of Channeling (Type 1 & type 2).
- ✓ Rule of Volume.
  
- ❖ How to identify trends using Elliott patterns....?
- ❖ Individual wave personality.
- ❖ What signals trend continuation & trend exhaustion (new trend formation/counter trend) ...?
- ❖ How to calculate the time frame necessary for an existing or fore coming trend to achieve its target...?
- ❖ What is it to do with MATH & geometry for markets...?

### **Fibonacci**

- ✓ Introduction to Fibonacci
- ✓ How to calculate Fibo numbers → The mean concept of golden ratio.
- ✓ Retracements & Extensions (incl. ratio calculations & target expectancy).
- ✓ Why markets retrace prior price movement...?
- ✓ Major correlation and significance of Fibonacci with respect to Elliott patterns.
- ✓ How to plot them correctly...?
  
- ❖ Calculation of **Price target & stop loss** for a position in a trend (detailed).
- ❖ Understanding various clues hidden in price chart
- ❖ Confirming all step analysis for taking a trade successfully.
- ❖ How to construct a precise compendium for an effective trade plan...?

**How to hedge profitably (master stroke for any profitable trader)  
our exclusive apart from EWP...?**

- ✓ Alternate trades in opposite trends
- ✓ How to go short on longs or long on shorts for particular trends...?
- ✓ How to make most of the money in corrections by application of all rules...?
- ✓ Framing cautious entry and exit points in corrections.

- ❖ Money management.
- ❖ Risk management.
- ❖ Trading styles (breakout/constant-stable/pre-safe).
- ❖ Assistance in identifying your very own trading style.
